## What's a megabit?

[Add Reply](#) [« Prev](#) [Next »](#)

**[Ben.](#) 04 September 2006 - 12:25 PM**

Yeh, yet he knows nothing about computers, xp, the internet, anything.

Why do people like this exist?

**[ComputersXP](#) 04 September 2006 - 01:12 PM**

o.k i maybe wrong , come on , im very smart when it comes to pc's but i dont know anythng about Megabits this is why im off to college to learn !!!

Mak , yes i have had some arguments with you but i do admit that i could of been wrong

Wetlegs 10mb line i no that you cant get more than 1.44mbps !!

actually im 17 😊

but when i ask questions i ask them to get a answer wetlegs or mak !!but mak and wetlegs you are 2 decent people and i wish to still communicate with you !! you too have helped me alot in the time i have been speaking to you both !!!

Quote

enough of a challenge talking to him. I dont know if i could handle another talk like this.

mak that just hurts !!

o.k guys i can be dumb at times and yes i was being dumb this time cause i didnt know wat mb or kb or KB or kB stood for and like i said to danny i still dont !!!

Thanks John

hi

John | xxxxxxxx.co.uk | 17th Bday in 20 Days:

is rc2 out of vista?

i was told it is

Shane - WMP11 does remember playlists! Just in a \*\*\*\*ed up way!:

no

rc1 was released on FRIDAY

John | xxxxxxxx.co.uk | 17th Bday in 20 Days:

yeh thats wat i told him

Shane - WMP11 does remember playlists! Just in a \*\*\*\*ed up way!:

ms will never release a build on a sunday

John | xxxxxxxx.co.uk | 17th Bday in 20 Days:

he said its rc2 beta 2 on msdn

Shane - WMP11 does remember playlists! Just in a \*\*\*\*ed up way!:

rc2 beta 2

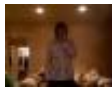

that makes no sense

John | xxxxxxxx.co.uk | 17th Bday in 20 Days:

yep i no

This guy also believes everything he sees/is told and is forever bothering me about it 😏

He thought RC1 was out on like the 18th of August and argued when I told him it wasn't...Gotta see if I can find the log of that xD

Okay my comment on the convos was a joke. If i really didnt wish to speak to you then i am sure i would have blocked you by now. But in all honesty you dont give people credit for what they do know. I have been working with PC's for just about as long as you have been alive yet you constantly tell me that i am wrong on multiple subjects. Seriously if i didnt kow what i was talking about i would flat out tell you i dont know. I know i haev said that before.

I know NetBlaster threatened me. I just said that i was threatened. I never said by whom. That was my bad. But in all honesty on this part, you take things from multiple sources without ever giving credit. How are the people you are giving this info too ever gonna be able to help themselves? The true nature of support is to give people the info they need to get the problem solved and the resources to help themselves out next time. Do you think i always knew how to get Vista? Or how to run it? No. Thru the good people here, BP, and a few other sites i regular, i have been fortunate enough to learn.

I just think by you putting that stuff on your site you want people to think you are smater than they are. They think you find all this stuff and post when in all honesty someone else has done all the work and you just Ctrl+C, Ctrl+V the stuff. I have always been fair and give credit to the places where i get my info. In some occasions i dont only cause the source wishes to remain anonymous.

I have seriously no hard feelings. If i did do you think i would answer your IM's? Or even continue to let you to my site? But you need to be a bit more open minded when you talk to people. You think you have all the answers and know it all. I am not saying i do. But i vertainly know when to ask and when to concede that i am wrong. 😊

**[Ben](#). 04 September 2006 - 02:16 PM**

Im debating whether to demand removal of my site code 😊

**Ben. 04 September 2006 - 04:36 PM**

Was it worth coming back Steve? 😄

I annoyed him a bit by getting his address from a W\*\*\*\* check 😄 Pity he doesn't know how to get mine LOL

I live in California 😄 😄

EDIT: Have sent him an email demanding removal of all my content from his site. Otherwise I will contact his hosting company.

**KSoD 04 September 2006 - 05:03 PM**

Wow i know that he pisses me off at times. But what did he due to you wetlegs? Must have been something major. 😄

**Ben. 04 September 2006 - 05:38 PM**

Well after that request I got added by Jhn from the hosting companies support.

I have my suspicions though, since John didn't understand the companies own Ts & Cs and further didn't understand any form of copyright law. Furthermore when we were finished he promptly ran away.

But, if that was John pretending to be his hosting company, he's about to get a nasty surprise, as I already

emailed the hosting company requesting help in the matter if he didn't bend.

John from the support place has told me he has agreed to remove all content by tomorrow. So we shall see.

**KSoD 04 September 2006 - 05:43 PM**

Well it seems that CoSP site will be off the net for a couple of days. 🙄

So, here is the entire log of my earlier chat with the 'Support guy' who is also called John. You can draw your own opinions as to whether it was him from the various slip-ups he made and the similarities in grammar and punctuation mistakes!

Quote

(22:06) **John // Fireb:** Hello

(22:06) **Shane - WMP11 do:** hi

(22:06) **John // Fireb:** ive had John Randall Speak to me about a email he got from you !

(22:06) **Shane - WMP11 do:** yes, requesting the removal of my site template

(22:07) **John // Fireb:** Why wont you let him keep it ? hes advertising your site

(22:07) **Shane - WMP11 do:** yes, but he has botched the site coding and made it look horrible, re-done the graphics so they look horrible, and i really dont want that sort of advertisement

(22:08) **John // Fireb:** Well , what about if he re made it again ?

or took your name off it and site address ?

(22:09) **Shane - WMP11 do:** no, i want all MY code removed, he can write his own from scratch

(22:10) **John // Fireb:** Well , im sorry but he isnt prepared to do that ?

(22:10) **Shane - WMP11 do:** well, its thats or i take this matter further

(22:11) **John // Fireb:** how will you do that ?

(22:11) **Shane - WMP11 do:** that is none of your concern

(22:11) **John // Fireb:** i think it is when it concerns a member of mine

(22:12) **Shane - WMP11 do:** It is none of your concern to poke your nose into possible further proceedings. I just want him to delete the current one and start afresh - it isnt exactly that hard to do. I knocked up that site template in about a half hour, hardly a lifelong ordeal.

(22:13) **John // Fireb:** well , he said that he will do this along as you agree for him to keep the same layout but for him to change the colours etc

(22:13) **Shane - WMP11 do:** the same layout in what sense....

(22:13) **John // Fireb:** how it is now but change the bg colour etc

(22:14) **Shane - WMP11 do:** changing the background is not removing the site.

if he was willing to say, change all the images, that would be acceptable

(22:14) **John // Fireb:** Why u didnt make these images ?

(22:14) **Shane - WMP11 do:** i did actually

all but his top banner

(22:15) **Shane - WMP11 do:** well, i made the original and he stuck his logo over the top

(22:15) **John // Fireb:** give me 2 weeks and he will make his own ..

i mean

(22:15) **Shane - WMP11 do:** 2 weeks.

?

(22:15) **John // Fireb:** giveme 2 weeks to speak to him

(22:15) **John // Fireb:** and i will make sure he has changed it

is this ok ?

(22:15) **Shane - WMP11 do:** fine then

(22:16) **Shane - WMP11 do:** you have two weeks, from today. If it isnt done by then, you'll hear from me again.

(22:16) **John // Fireb:** o.k ...oh and he will be using your images good night

(22:16) **Shane - WMP11 do:** haha i knew it

(22:16) **John // Fireb:** he told me that you got them from a vista build

(22:17) **Shane - WMP11 do:** and? I put them together with the text.

if you're going to be like that, he should remove them anyway as they're copyright microsoft.

(22:18) **John // Fireb:** im just looking at your site .. turned out your site is copyrite MS aswell

(22:18) **Shane - WMP11 do:** yes, and?

you're not my host

(22:18) **John // Fireb:** Well it settled

(22:19) **John // Fireb:** u either accept that he makes his site again or you accept he takes your name and site addy of it ? which one is it ??

(22:20) **Shane - WMP11 do:** he makes his site again, as i wanted from the start

(22:20) **John // Fireb:** this is not a option

(22:20) **Shane - WMP11 do:** it was

u either accept that he makes his site again or

(22:20) **John // Fireb:** o.k , sorry didnt read wat you had typed

(22:21) **John // Fireb:** hes telling me , that you have also reported his forum to IPS or IPB is this correct ?

(22:21) **Shane - WMP11 do:** yes

(22:22) **John // Fireb:** well , i think this is a little selfish

(22:22) **Shane - WMP11 do:** why?

(22:22) **Shane - WMP11 do:** you're really not a very good host if youre condoning illegal activity

(22:22) **John // Fireb:** its paid hosting

(22:22) **Shane - WMP11 do:** so?

(22:22) **John // Fireb:** the client hosts wat he likes

its there responsibility

not yours

(22:23) **Shane - WMP11 do:** thats strange, all the hosting ive ever paid for, the hosting company has checked and removed any illegal content

(22:23) **John // Fireb:** yeh , this is due to being on a reseller , Fireblaze has there OWN server with there own rules ?

(22:24) **John // Fireb:** Sir , i advise you to leave my Client Mr . Randall alone ... other wise he could act on this matter

(22:24) **Shane - WMP11 do:** i have already blocked him on msn

but i am insisting he removes my content

(22:25) **Shane - WMP11 do:** might i also note that in your terms and conditions on your website it states: "Fire Blaze Host will fully cooperate with law enforcement authorities in the detection and prosecution of illegal activity. Violation of Rules Breaking any of these aforementioned rules may result in immediate account suspension with out refund, as well as criminal prosecution where deemed necessary."

(22:27) **John // Fireb:** Sir , like i have said , the client does as he likes !

(22:27) **Shane - WMP11 do:** BUT, illegal activity may result in immediate termination of account and legal action - If I were you id be a bit more worried about your clients behaviours and would follow your Ts and Cs

(22:27) **John // Fireb:** he pays so why cant he use his hosting how he wants it ?

(22:28) **Shane - WMP11 do:** because he is breaking the law, and those of us who do not do so suffer for it

(22:28) **John // Fireb:** LOL

and you dont break the law ?

(22:28) **Shane - WMP11 do:** not often

i have legal IPB licenses anyway

(22:28) **John // Fireb:** Well there u go

SO

(22:29) **Shane - WMP11 do:** and I dont copy peoples website designs and refuse to remove them at request.

(22:29) **John // Fireb:** he claims you let him have it ?

is this correct ?

(22:29) **Shane - WMP11 do:** i did at the time yes, however I have the permission as copyright owner to withdraw this at any time.

(22:30) **John // Fireb:** Nope your not the copy right owner due to Mr . Randall changing the pages to his information

(22:30) **Shane - WMP11 do:** i have a vcopyright on the design

\*copyright

(22:31) **John // Fireb:** Could he use this with out the copyright ?

(22:31) **John // Fireb:** or how about sorting your differences out with Mr .Randall ?

(22:31) **Shane - WMP11 do:** i would rather not sort it out with him

i lose several iq points everytime i say hello

(22:32) **John // Fireb:** He told me he will remove it first thing tomorrow morning

(22:32) **Shane - WMP11 do:** fine then

**stevenaxe 04 September 2006 - 07:49 PM**

I want to see a \*\*\*\*ing police raid!

**cybertimber2009 04 September 2006 - 08:17 PM**

Is that the same person that was here earlier Ben? I'm just worried about a fight starting here that might involve threats of legal or police action. I think its happened once.

If its someone who doesn't know of your posting.. I'll leave it to Dan. Funny as hell though. Gonna write your Copyright rules in the templates from now on? Or just write "Expressed or Implied, as the Creator (enter name here) decides before and after modification.

Should cover all legal bases.

Now this has got to be the dumbest thing. Plain and simple i hope your friend is ready to get into trouble for you. Cause if that is true then when someone does a whois on the site and gets their address, well they might not enjoy that too much. Espically if things get taken over by Authorities. Then they will have to explain why they are doing these things. Cause they wil be the ones who get into trouble.

Now after reading the logs, specifically the one with wetlegs and Danny, threatening with a shotgun? No you know that will get you into some serious trouble. Even if they dont have your address how tough would it be to find a John who BDay is in 18 days. So lets see that means we are looking for someone named John R\*\*\*\*\* who BDay is Sept 23, 1989. I am sure that info will help the authorties.

So i dont think you outsmarted anyone there. Considering i just figured out how to find you easily.

Also wow you really have taken some stuff. Wow. I didnt thnk you stole that many templets.
