i think you better leave

[KSoD](#) 05 September 2006 - 01:33 PM

You are correct. But with the last name R*****? That live in the UK? Considering you are a member of this forum and BP along with TechModo i am sure that there is a way to get your IP.

Sorry John but you dotn seem to understand that you can be found. Your IP is logged everytime you post. My biggest problem is you threatening with a sawed off shotgun. I see you have no comment on that. Real men fight with their hands. Not with guns. Guns are for hunters.

All that was asked was for you to remove wetlegs stuff from your site. It wasnt your to begin with so why is it so hard to do something that is asked from the creator?

Damn all i want is for you to understand that you are not always right. Aside from the fact you have been proven wrong on many ocassions give in to the fact that YOU DO NOT KNOW IT ALL. I dont. I know wetlegs will say the same thing. But in his own way.

Why must you insist that you are always right when it has been shown to you that you are not? There is a thing called copyright infringement. The RIAA sues over it all the time. You think you wont be caught but you know what, you can be.

It did when I posted it, but you sharply removed it.

You KNOW it was there, and so do I. If you want me to I can look through my cached data and find it including the original URL.

And also, I might just go and inform the guy at stefanstemplates.co.nr that you're apparently using his template and saying it's yours? Nice job of editing the META tags out, pity you don't know what they're for 😄

[ComputersXP](#) 05 September 2006 - 02:20 PM

That still doesn't mean you can say they're copyright YOU.

Plus, I know you were in today because you were shown as viewing this topic when I posted the message about the css file this morning.

And this 'hosting support guy' is absolutely FANTASTIC for comedy!

horse 05 September 2006 - 02:45 PM

Oh god, lmfao.

I actually signed up to post my laughter (cheers wetlegs) at the fact he is pretending to be a tech support guy.
This is unreal.

Whats the problem!!!!!!!Im only masquarading as a my webhost, under the stupid disguise of someone WITH
THE SAME NAME AS ME !! LEAVE ME ALONE I STOLE IT MYSELF!!!1

Surely the hosting company will nail him for this? I cant believe he used the argument "its my site" against
copyright infringement.

Hey you replied 😏 You could just never come back and we'll carry on laughing at you here, probably pin the topic for future generations, and you'll be none the wiser 😏

Thats funny. Cause you certainly act that way. When you ask a question and i give you the answer that i know of you are always right there to say i am wrong. 😏 😏

Ben. 07 September 2006 - 10:23 AM

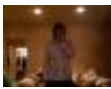

So, guys can I move for this topic to be pinned?

It is ****ing brilliant!

KSoD 07 September 2006 - 10:32 AM

I 2nd the motion for Pinnage. 😏

Danny 07 September 2006 - 11:00 AM

I third it.

Subject Delta 07 September 2006 - 11:35 AM

I Pin it

John why are you still posing as their customer support? 😏

Ben. 07 September 2006 - 02:03 PM

I think he's gone now 😊

As a finale to this saga, I got a reply from the hosting today, and I reported the fraudulent address in his WHOIS data, as well as impersonation of a member of their staff and hosting of illegal material 😊

I believe, that's story told. The moral. Don't **** with me 😊.

KSoD 07 September 2006 - 02:14 PM

Well i was contacted today by the infamous one. 😊

Subject Delta 08 September 2006 - 10:13 AM

Lol i think he has blocked me and Ben 😊

Ben. 26 November 2006 - 11:58 AM

LMAO

Sorry about this, but try to go to his site 😊

He was talking about hosting it on his own machine ages ago, and I warned him it would be slow as ****, I wonder if he's gone ahead and done it xD

KSoD 26 November 2006 - 12:12 PM

Wow takes almost 5 minutes just to load up. 😊 😊
